

The Heat Inside

FEEL THE HEAT INSIDE

BUY STORMRIDER BEFORE THE COLD STARTS BITING FOR **£180.00 COMPLETE** WITH CONNECTING CABLE FOR USE WITH ANY BIKE

(options include controller and battery pack (w 7.8cm x d 2.5cm x L 9.2cm; weight is only 230gms) which are available at extra cost)

THE EXO² STORMRIDER HEATED VEST

Smart Micro-Climate Management System

Developed to satisfy the needs of professional motorcyclists, the StormRider incorporates an innovative and unique climate control system.

Heat

The vest self-regulates to a temperature of 55°C. The optional controller allows you to precisely control the temperature of your own micro-environment, improving comfort, freedom and safety.

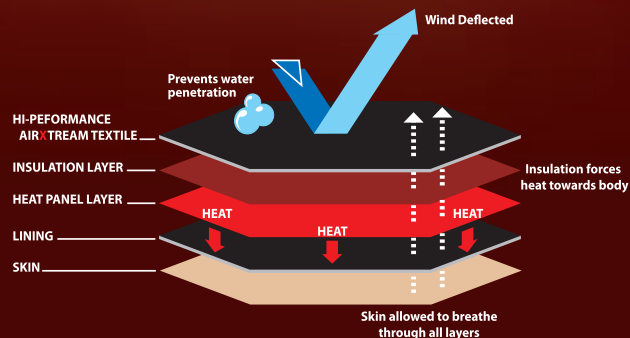

Battery Pack Option

The StormRider vest, with lightweight battery pack option, gives you ultimate flexibility, for up to 3 hours of warmth in the lower back area.

Wireless Hi-Performance Materials

The heat panels are made of specially treated Fabroc® conductive polymer. The outer garment layer is made of AirXtream, which is stretchable windproof, waterproof and breathable, ideal for a comfortable fit.

EXO² is a UK based innovator and is the premier European supplier of heated clothing systems.

EXO² has provided the technology behind the Berghaus Heatcell Outdoor Range and Typhoon Icebreaker Divers' Dry Suit Systems, with the latter winning the Diving Innovation Award for 2004.
